

## Director of Estimating Training

---

In this self-paced course, you will take the skills you learned in the intermediate and advanced estimating training courses and build upon them with the managerial skills and knowledge you will need to succeed.

This course is intended for those managing a team of estimators who wants to develop their leadership skillset and overall understanding of how roofing projects flow through the company.

This course is an excellent gateway to our **Associate and Certified Professional Roofing Estimator Certification Programs**.

Find complete information on the **Roofing Estimating Certification Program** at [More Info](#)
